Report of Independent Auditor

To the Board of Directors
Clemson University Foundation
Clemson, South Carolina

Opinion

We have audited the accompanying consolidated financial statements of Clemson University Foundation (the "Foundation"), a component unit of Clemson University, which comprise the consolidated statements of financial position as of June 30, 2024 and 2023, and the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Foundation as of June 30, 2024 and 2023, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited the Foundation's June 30, 2022 consolidated financial statements, and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated September 13, 2022. In our opinion, the summarized comparative information presented on the consolidated statement of activities herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 1—Organization

The Clemson University Foundation (the “Foundation”), an independent, nonprofit, tax-exempt public charity, was incorporated in 1933 under the laws of South Carolina for the purposes of promoting the welfare and future development of Clemson University (the “University”) in its educational and scientific research and to seek gifts or public funds for the benefit of the University through endowment giving, fundraising, or other programs and to prudently manage and disburse such funds. The Foundation includes the wholly-owned subsidiaries of Clemson University Foundation Holdings, LLC, CUF Data Administrator, LLC and CUF East Bay Property, LLC. Due to the nature and significance of its relationship with the University, the Foundation is considered a component unit of the University as defined by the provision of the Governmental Accounting Standards Board 14, *The Financial Reporting Entity*, as amended, with Foundation financial information presented discretely in the financial reporting of the University. The Foundation is governed by an independent, 27-member volunteer Board of Directors, with additional honorary and ex-officio directors.

Note 2—Summary of significant accounting policies

Basis of Accounting –The consolidated financial statements of the Foundation have been prepared on the accrual basis of accounting under the financial reporting framework of the Financial Accounting Standards Board (“FASB”) in its Accounting Standards Codification (“ASC”), *Financial Statements of Not-for-Profit Organizations*.

Basis of Presentation – The Foundation’s net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Without Donor Restrictions – Net assets that are not subject to donor-imposed restrictions. This includes funds that are designated for discretionary use by the Foundation and board-designated funds functioning as endowments.

With Donor Restrictions – Net assets subject to donor-imposed restrictions that may or will be met either by actions of the Foundation and/or the passage of time. This includes annuity and life income funds, term endowments, the present value of contributions receivable, and earnings on investments. Some net assets with donor restrictions are required by donors to be held in perpetuity. The donors of substantially all net assets to be held in perpetuity permit the Foundation to use a portion of the income earned on the related investments for specified purposes.

The Foundation recognizes revenue in accordance with FASB ASC Topic 606, *Revenue from Contracts with Customers*, Topic 320, *Investments – Debt Securities*, Topic 321, *Investments – Equity Securities*, and ASC 958-605, *Not-for-Profit Entities – Revenue Recognition*.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as released between the applicable classes of net assets. Revenues with donor restrictions that are used in the year of receipt are classified as net assets with donor restrictions and released from restrictions.

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 2—Summary of significant accounting policies (continued)

Contributions, including unconditional contributions receivable, are recognized as revenues in the period received. Conditional contributions receivable – that is, those with a measurable performance or other barrier and a right of return or release – are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved. Amortization of discounts is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions.

Income and realized and unrealized net gains or losses on investments are reported as follows:

Without Donor Restrictions – As increases or decreases in net assets if the terms of the gift are not considered to have donor restrictions.

With Donor Restrictions – As increases or decreases in net assets if the terms of the gift require that they be added to the principal of a permanent endowment fund or if the terms of the gift impose restrictions on the timing or the use of the income or by law.

The Foundation's investment management fees, as included in investment return, net on the consolidated statements of activities, are governed by FASB ASC Topic 606, which contains a single performance obligation via a provided service or series of services that are substantially the same with the same pattern of service delivery to the related organization. The Foundation follows the "as-invoiced" practical expedient provided within FASB ASC Topic 606, and as such, revenue is recognized at a single point-in-time, for services provided through the billing date.

Principles of Consolidation – The consolidated financial statements include the financial statements of the Foundation and its wholly-owned subsidiaries of Clemson University Foundation Holdings, LLC, CUF Data Administrator, LLC and CUF East Bay Property, LLC. All significant intercompany balances and transactions have been eliminated in consolidation.

Cash and Cash Equivalents – The Foundation considers all interest-bearing money market accounts and short-term investments with an initial maturity of three months or less at the date of purchase to be cash equivalents. Certificates of Deposits are considered as cash equivalents irrespective of maturity date. The Foundation places its cash and cash equivalents on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation covers \$250,000 for substantially all depository accounts.

At June 30, 2024 and 2023, the Foundation had \$63,525,100 and \$66,593,593, respectively, on deposit in excess of the insured limits. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Investments – Investment securities are generally recorded at fair value. In the case of certain less marketable investments, principally private equity and real estate investments, value is established based on either external events which substantiate a change in value or a reasonable methodology that exists to capture and quantify changes in value. In some instances, those changes in value may require use of estimates. Accordingly, such values may differ from the values that would have been used had a ready market for the investments existed.

Investment income, net of external and internal management expenses and fees, and gains and losses arising from the sale or other disposition of investments and other noncash assets is distributed to the various endowments using a pooled income approach. This approach distributes income following the fair value unit method, which is based on the number of units each endowment owns in the managed investment pool.

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 2—Summary of significant accounting policies (continued)

Endowment and board-designated funds are invested on the basis of a total return policy to provide income and to realize appreciation in investment values. Under this policy, earnings, not to exceed a specified percentage, could be used to support the intended purposes. An appropriation from the endowment for expenditures that support the intended purpose may be made to the extent it is deemed prudent, unless otherwise restricted by the donor in the gift instrument.

The Foundation's investments include various types of investment securities and investment vehicles. Investment securities are exposed to several risks, such as interest rate, currency, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Foundation's consolidated financial statements.

Land, Building, and Equipment, Net – Land, buildings, and equipment are stated at cost at the date of acquisition. Cost for donated assets is stated at the appraised fair value on the date of donation. Equipment with a value in excess of \$5,000 and a useful life in excess of one year is capitalized and depreciated using the straight-line method over the estimated useful lives of the respective assets, ranging from five to seven years. Buildings are depreciated using the straight-line method over the estimated useful lives of the respective assets ranging from 15 to 20 years.

Split-Interest Agreements – The Foundation has been named as beneficiary of split-interest agreements consisting of irrevocable charitable remainder trusts and charitable gift annuities. The assets for trusts and annuities where the Foundation serves as trustee are included in investments. Contribution revenues are recognized at the dates the trusts are established and liabilities recorded for the present value of the estimated future payments to be made to donors or other beneficiaries. The liabilities are adjusted annually for changes in the value of the assets, accretion of the discount, and other changes related to estimated future donor-related payments. Trust assets administered by others are recorded as trusts held by others and are adjusted annually for changes in fair value.

Tax Status – The Foundation is recognized as an organization exempt from federal income tax on related income under Section 501(a) of the Internal Revenue Code ("IRC") and described as an organization in Section 501(c)(3) of the IRC. Accordingly, only unrelated business income, as defined by Section 513 of the IRC, is subject to federal income tax. Because any unrelated business income tax liability is primarily the result of flow through business income from private investment partnerships, unrelated business income tax is included as an endowment expense on the consolidated statements of activities. The single member LLCs are disregarded for tax purposes.

Fair Value of Financial Instruments – The carrying values of cash and cash equivalents, other assets, due to (from) related organizations, and accounts payable and accruals approximate fair value because of the terms and relative short maturity of financial instruments. The carrying values, which are the fair value of investments, are based on values provided by an external investment manager or comparison to quoted fair values. The liabilities for notes payable are related to investments and investments held in trust for affiliate and, accordingly, are reported at fair value. Contributions receivable and actuarial liability of annuities payable are reported at the discounted present value, which approximates fair value.

Concentrations of Credit Risk – Financial instruments which potentially subject the Foundation to concentrations of credit risk consist principally of investments. The exposure to concentrations of credit risk relative to investments is limited due to the Foundation's investment objectives and policies, as adopted by its Board of Directors. The investment policies prohibit the acquisition of certain securities and require, among other things, that securities be diversified and meet investment grade quality criteria.

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 2—Summary of significant accounting policies (continued)

Use of Estimates – The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management of the Foundation to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Comparative Information – The consolidated financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Foundation’s consolidated financial statements for the year ended June 30, 2022 from which the summarized information was derived.

New Accounting Pronouncements - In June 2016, FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326)* and subsequent related amendments (ASU 2018-19, ASU 2019-04, ASU 2019-05, ASU 2019-10, ASU 2019-11, and ASU 2022-02). This guidance replaces the existing incurred loss impairment guidance and establishes a single allowance framework for financial assets carried at amortized cost based on expected credit losses. The estimate of expected credit losses requires the incorporation of historical information, current conditions, and reasonable and supportable forecasts. The adoption of this standard did not have an effect on the Foundation’s consolidated financial statements.

Note 3—Fair value measurements

Fair value, as defined under U.S. GAAP, is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Foundation utilizes market data or assumptions that market participants would use in pricing the asset or liability. The Foundation has characterized its financial assets and liabilities which are measured at fair value and recorded in the consolidated statements of financial position, based on a three-level fair value hierarchy based on the inputs to valuation techniques as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 – Valuations based on unobservable inputs reflecting the Foundation’s own assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment or estimation by the investment manager.

Investments measured at net asset value (“NAV”) are those which the Foundation has applied a practical expedient and concluded that NAV reported by the underlying fund approximated the fair value of investments, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. The Foundation has no plans to sell these investments in the secondary market at amounts substantially different from NAV.

The majority of the Foundation's underlying fund managers use a market approach to value an investment. In addition, the following inputs/valuation techniques are used-comparable security analysis, recent transactions, earnings and cash flow forecasts, market multiple analysis, discounted cash flow/time value of money, internal valuation models, third party appraisals, bona fide offers, and at cost for the period just subsequent to acquisition.

Hedge funds ⁽²⁾	<u>147,637,874</u>		Monthly to Annually	33-95 days
Total	<u>\$ 353,745,571</u>			

(1) This category includes investments in private equity, buyout, real assets, and venture capital funds. These funds invest primarily in domestic companies across a broad spectrum of industries. Fair value of the partnerships is determined by the Fund Manager using NAV reported by the underlying partnerships. For real assets, fair value is estimated by the general partner based on an internal valuation of the underlying projects. Generally, these funds cannot be redeemed; instead, the nature of the investments is that distributions will be received as the underlying investments of the fund are liquidated.

(2) This category includes investments which seek to generate superior risk adjusted returns through a range of investment strategies. In addition to lock-up periods, some investments include early redemption fees or "gates" which limit the percentage of the investments that can be redeemed at one time.

JUNE 30, 2024 AND 2023

Note 4—Investments (continued)

The Foundation assesses a management fee, as included in investment return, net on the consolidated statements of activities, to individual endowment funds and related parties, to provide support for fundraising, donor stewardship, and endowment administration. For 2024 and 2023, this fee was 1.25% of the 12-quarter trailing average fair value of endowment funds and totaled approximately \$10.5 million and \$9.3 million, respectively.

The South Carolina Code of Laws allows the University's Board of Trustees to loan endowment funds to the Foundation for the purpose of maximizing the investment yield and increasing the available funds for scholarships and other programs. For the years ended June 30, 2024 and 2023, University endowment funds of \$263,073,236 and \$243,957,147, respectively, were loaned to the Foundation and are included in investments held for Clemson University in the consolidated statements of financial position.

Included in land, buildings, and equipment at June 30, 2024 and 2023 is land donated to the Foundation which had an appraised value of \$8,971,049 in the year it was acquired. Conservation easements have been assigned to property located in Georgetown County, South Carolina which requires the land to remain in its undeveloped state but allows for the construction, operation, and management of a research and educational facility. The carrying value is comprised of land of \$917,418 and conservation easements of \$8,053,631. Depreciation expense for the years ended June 30, 2024 and 2023 was \$27,783.

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 7—Endowment assets

The Foundation’s endowment consists of approximately 2,300 individual funds established for a variety of purposes including both donor-restricted endowment funds and funds designated by the Board of Directors of the Foundation to function as endowments. Net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law – The Board of Directors of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act (“UPMIFA”) enacted July 1, 2008, in the state of South Carolina as setting forth the standard of conduct for preserving the value of the original gift. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions (a) the original value of the gifts donated (b) the original value of subsequent gifts required to be maintained in perpetuity, and (c) accumulation of earnings required to be added to the net assets with donor restrictions required to be maintained in perpetuity as stipulated by the donor applicable donor gift instrument.

The remaining portion of the donor-restricted endowment fund that is not required to be maintained in perpetuity is classified as net assets with donor restricted until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund.
2. The purposes of the Foundation and the donor-restricted endowment fund.
3. General economic conditions.
4. The possible effect of inflation and deflation.
5. The expected total return from income and the appreciation of investments.
6. Other resources of the Foundation.
7. The investment policies of the Foundation.

Endowment net assets consist of the following at June 30, 2024:

	Without Donor Restrictions	With Donor Restrictions	Total
Donor-restricted endowment funds	\$ -	\$ 760,168,252	\$ 760,168,252

CLEMSON UNIVERSITY FOUNDATION
(A Component Unit of Clemson University)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 7—Endowment assets (continued)

Funds with Deficiencies – From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in net assets with donor restrictions or underwater endowments were \$-0- and \$46,375 at June 30, 2024 and 2023, respectively. Deficiencies would result from unfavorable market fluctuations occurring after the investment of permanently restricted contributions and, to a degree by continued appropriation for certain programs deemed prudent by the Board of Directors.

Return Objectives and Risk Parameters – The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a relatively predictable, stable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specified period as well as board-designated funds. As authorized by board approved policies, these assets are invested to maximize long-term returns, while simultaneously mitigating risk through maintaining a diversified portfolio. A multi-generational window not only allows for the typical diversification across asset classes, but also for time diversification across both up and down markets.

The assets are invested in a manner that is intended to produce results, in the long term, that meet or exceed the composite return and are within the risk parameters of an approved benchmark. The long-term objective is to attain, within acceptable risk parameters, an average annual total return that exceeds the sum of the Foundation's approved payout rate plus inflation, plus investment management and related fees. The objective is expected to be obtained over time but not in each and every reporting period.

Strategies Employed for Achieving Objectives – To address its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy – The Foundation endowment spending policy appropriates for distribution each year a certain percentage of its endowment funds based on fair value averages. For 2024 and 2023, the spending percentage was 4% based on average fair value of endowment funds as of the end of the 12 prior quarters. The goal of such spending policy is to allow the endowment to maintain its purchasing power, achieve a reasonable degree of stability and predictability in income availability for operations and to achieve a balance between present and future needs.

	<u>\$ 3,046,509</u>	<u>\$ 2,806,817</u>

The Foundation transfers certain assets (to) from related parties, as disclosed in Note 19.

In accordance with the Affiliation Agreement between the University and the Foundation, the Foundation reimburses the University for services provided by University employees and University resources utilized in support of activities of the Foundation. In this regard, the Foundation reimbursed the University approximately \$1.3 million and \$1.5 million in compensation expenses directly related to services of University employees during fiscal years 2024 and 2023, respectively. The Foundation also provided in excess of \$10.1 million and \$6.5 million in general operating funds for Development and other University purposes which is greater than and covers the cost of University resources utilized by the Foundation during fiscal years 2024 and 2023, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2024 AND 2023

Note 8—Related party transactions (continued)

In June 2022, the Foundation entered into a loan agreement with Clemson University Land Stewardship Foundation (“CULSF”) to purchase land for development for the future use and benefit of the University. The loan amount advanced was \$2,006,072. The funds advanced to CULSF are included in the due from related organizations line item on the consolidated statements of financial position at June 30, 2024 and 2023 with balances of \$1,877,904 and \$1,940,434 respectively. Interest will be accrued based on the prime rate plus 25 basis points and calculated annually with annual adjustments on the anniversary date but shall never be less than the interest rate on the purchase close date or greater than the interest rate on the purchase closing date plus 1.00%. The interest rate on the purchase closing date was 4.25%. The interest rate was 5.25% at June 30, 2024 and 2023. The loan allows for either monthly or annual payments with a maturity in June 2028. The loan is based upon a 20-year amortization with a final balloon payment at maturity.

In September 2023, the Foundation entered into a loan agreement with CULSF to purchase land adjacent to the University-International Center for Automotive Research (“CU-ICAR”) campus for the future use and benefit of Clemson University. The loan amount advanced was \$800,000. The funds advanced to CULSF are included in the due from related organizations line item on the consolidated statements of financial position at June 30, 2024 with a balance of \$783,919. Interest will be accrued based on the prime rate plus 25 basis points and calculated annually with annual adjustments on the anniversary date but shall never be less than the interest rate on the purchase close date or greater than the interest rate on the purchase closing date plus 1.00%. The interest rate on the purchase closing date was 8.50%. The interest rate was 8.75% at June 30, 2024. The loan allows for either monthly or annual payments with a maturity of September 2029. The loan is based upon a 20-year amortization with a final balloon payment at maturity.

The University and the Foundation have a Memorandum of Understanding (“MOU”) whereby the University loans certain endowment funds to the Foundation for the purpose of maximizing the investment yield and increasing the funds available for scholarships and other University programs. The principal balance outstanding at June 30, 2024 and 2023 was \$146,677,655 and the accrued liability to the University due to net investment appreciation on the principal outstanding was \$116,395,581 and \$97,279,492, respectively. The MOU was for a term of 10 years beginning on July 11, 2003 and is reviewed annually by the University and the Foundation prior to the anniversary date and the term is automatically renewed each year for a 12-month period unless either party provides written notice of its objection to the extension at least 30 days prior to the anniversary date. Should the University determine the loaned funds are to be repaid, pursuant to the MOU the Foundation is required to pay back the funds to the University with interest at a rate equal to the total cumulative return (consisting of appreciation and income less any payouts to the University) earned from the investment of such funds by the Foundation. The University is prohibited from requesting a return of the loaned funds if the total cumulative return is negative.

In December 2007, the Foundation approved a non-interest-bearing loan of \$20,000,000 to the Clemson University Real Estate Foundation (“CUREF”) for investment in land acquisitions and improvements at CU-ICAR. This loan was assigned to CULSF in December 2012 with the transfer of the underlying asset.

Note 9—Split-interest agreements

The Foundation has entered into charitable remainder annuity and unitrust agreements whereby assets are made available on the condition that income is paid periodically to designated individuals. Payments of such amounts terminate at a time specified in the agreements. Included in investments at June 30, 2024 and 2023 are \$7,775,447 and \$7,618,784, respectively, of assets held under the agreements and are comprised of U.S. government obligations, corporate bonds, and U.S. and global equities.
